

Epiphany Catholic School: Incoming 3rd Grade Math Summer Skills

Students are **strongly suggested** to practice **math skills** during the summer using the IXL website/app. **Students should work on the grade level they have just completed. For example, a rising third grader should work on second grade skills.** Students are expected to achieve a SmartScore of 80 or higher for each skill they practice. While all of the skills listed under their **outgoing grade** are great to practice, below are the most recommended skills. We are suggesting students to **complete 2 skills per week**. You may note completed skills on attached log. ECS will recognize students completing weekly skills.

RECOMMENDED 2nd GRADE SKILLS FOR RISING 3rd GRADERS

Please note that some/many of the skills may have already been completed during the school year.

Counting & number patterns

All skills

Comparing and ordering

All skills

Addition – three digits
